STATEMENT OF SIGNIFICANCE

Description:

The large, attractive, log constructed Clubhouse has historical and social importance to the communities of Rossland and Trail. It was built in 1927 as the second Clubhouse of the

Rossland/Trail Golf and Country Club which was formed in 1922. The Club leased 40 acres of land below Rossland and there were a links-style golf course and tennis courts by the Clubhouse, which acted as the social hub for activities of the members.

The Golf Course is the oldest one in the West Kootenays and the Clubhouse is also the oldest remaining one in the Kootenays, being in active use since 1927.

Rossland Golf Clubhouse c. 1930
