STATEMENT OF SIGNIFICANCE

Description:

The Rossland Swimming Pool is located on the south side of Columbia Avenue at the western edge of the downtown. The Pool property includes Lots 15, 16, and 17 of Block 26. It has a 90 foot frontage on Columbia Avenue where the entrance is located.

Heritage Value:

Rosslanders take pride in having the oldest, outdoor swimming pool in the province and the fact that it has served the community so well, from the same site, for over 90 years. The construction of the Rossland Swimming Pool is a testament to the community initiative and spirit of Rosslanders of the early 1930s, when the gold mines finally closed and the Great Depression began. Land was donated by the city, Cominco donated the pump and

fundraising provided the materials. Volunteers provided the organization and labour.

Rosslanders have always valued sport and recreation. The addition of the pool in 1932 was a natural step in the development of facilities and opportunities for both active leisure time and honing skills. Most children have learned to swim there and received instruction over a number of years when they attended public school.

The Rossland Swimming Pool plays an important role in the summer social fabric of the community. It is a very popular place to enjoy an outdoor activity. The Pool is a noteworthy amenity for the community and its importance is always mentioned when Rosslanders are asked to list their community's attractions.
